6. Medical sheepskin (Relugan 2,50-4CM):

Relugan is a medical type of sheepskin tanned with plant tannins without the use of toxic compounds of chromium and chlorine, harmful to humans and the environment. Owing to that, sheepskins gain pretty, warm yellow colour and silky, fluffy wool. Sheepskin tanned in this way have become known as medical sheepskins and are recommended by rheumatologists and physiotherapists for people with rheumatism, joint problems, as leather “bedsheets”. This fully natural product is superbly suitable as a mattress overlay, wheelchair padding, baby playmat, etc. Wool is a breathable material which has thermoregulatory properties, which is important especially with the youngest children. We are convinced that we offer our customers sheepskins of the highest quality – regulans.

15. Decorative hides of Scandinavian reindeer :

A decorative hide of the Scandinavian reindeer is a genuine one, ideal for decorative purposes in both modern and traditional interiors.

A reindeer hide is very delicate, we do not recommend using it as rugs on floors, as the hair may moult, however, it looks very pretty displayed on the wall.

Hides of reindeer, boar and fallow deer are only some of our range of products. We also strive to cater for the fans of the more exotic species shopping either for themselves or for another person whom they wish to present with an exceptional gift. Such hides are elegant and symbolise sophisticated taste. Each hide is unique; hence its purchase means acquisition of one-of-a-kind product.
